Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 12/1/05 have been fully considered but they are not persuasive. Prior art used in first action does indeed cover claim 1. In step S27 reacquired has the meaning of "being acquired while the bicycle is in motion (at any time while in motion)", otherwise the cancellation would happen any time the preset value is reached, also see paragraph 30, lines 8-13, where it is disclosed that the decision is made for the current speed.

Specification

2. The disclosure is objected to because of the following informalities: The word "that" should be removed from paragraph 26 line 5.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 1-21 are rejected under 35 U.S.C. 102(a) as being unpatentable by Fujii (U.S. Publication No. 2003/0071436 A1). Fujii discloses a threshold value setting unit 30, a decision unit (step S23, para. 29 line 11) that decides if the bicycle speed/crank

Art Unit: 3611

RPM (para. 3) of the current running condition passes the threshold value, a tentative shift unit (step S25, para. 30 line 6), a canceling unit (step S24 para. 30 line 4), a control unit 25 that provides a signal to upshift or downshift the bicycle transmission when the current running condition value passes the threshold value a plurality of times consecutively or for a predetermined time period (para 30 line 16), and a decision unit receiving a plurality of running condition values from a single revolution of a bicycle wheel (para. 4) or from an alternating current generator (para. 24).

5. It has been held that the recitation that an element is "adapted to" perform a function is not a positive limitation but only requires the ability to so perform. It does not constitute a limitation in any patentable sense. *In re Hutchison*, 69 USPQ 138.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
